REVISED
October 2018

1-2-3 Utility Bill Assistance

1. Apply for energy assistance.

Limited-income customers may be eligible for Maryland state energy assistance programs that can help with utility bills. A detailed description of these programs are provided on page four. There is one application for all Maryland state energy assistance programs.

Maryland Energy Assistance Program (MEAP) distributes funds for gas, oil, electricity and other home heating and cooling bills to limited income individuals and families.

Electric Universal Service Program (EUSP) is a program that helps low-income electricity customers pay their electric bills. It provides both assistance with future bills and arrearage assistance. Some customers who are not eligible for MEAP are eligible for EUSP.

Gas Arrearage Retirement Assistance (GARA) is a program that helps eligible low-income gas customers with past-due gas bills. **NEW** as of October 2018.

Enrollment in these programs is not automatic. You must meet eligibility requirements and apply with a local assistance agency. Local assistance offices are listed in this guide. For locations in other counties, contact the Maryland Office of Home Energy Programs (1-800-352-1446).

2. Ask about other energy assistance funds.

Supplementary assistance may be obtained from a local Fuel Fund, or other state or local programs. Information about some of these programs is included in this packet and can be obtained from your local energy assistance office.

Agencies that may be able to provide assistance include those entities that work with senior citizens, persons with disabilities or faith-based organizations.

3. Try to work out a payment arrangement.

If you still owe money to the utility after applying for energy assistance, or did not qualify for assistance, you should contact your utility to work out a reasonable payment arrangement for the past due amount. If you try to work out a reasonable payment arrangement and are not successful, contact the Public Service Commission (PSC) at 410-767-8028 (press "1" at the prompt) to make a complaint. The PSC complaint form is enclosed in this packet.

Utility Shut-Offs and Serious Illness & Life Support

If you have received a shut-off notice and someone in the home is seriously ill or needs life support equipment, contact the utility immediately. If you present a Public Service Commission (PSC) **Medical Certification Form** stating that termination of electric, gas or both will aggravate an existing serious illness or prevent the use of life-support equipment, a utility may not terminate service for an initial period of up to 30 days beyond the scheduled date of service termination.

The medical certification does not prevent shut-offs indefinitely. The customer must take steps to resolve the unpaid bills to avoid service termination in the future.

If you are off-service already, the utility does not have to restore service unless the utility bills are paid. However, we recommend that you contact the utility, inform them of the medical situation, take steps to get assistance with the bills, and try to work out a payment plan.

THINGS TO REMEMBER:

- Call the utility **immediately** to inform them of the situation
- Submit a Medical Certification form to the utility immediately
 - Send the form by fax, email (with scanned copy) or hard copy
 - Use the attached form (temporary until revised by the PSC)
 - A medical professional must sign the certification form
 - **NEW: Certified Nurse Practitioners and Physicians Assistants** can now sign the form in addition to physicians
- The customer must promptly (within 30 days) enter into an agreement with the utility for the payment of outstanding utility bills
 - If you are low-income or will have difficulty paying the bills, you should:
 - Apply immediately for MEAP or EUSP energy assistance if you meet the income guidelines
 - If in the hospital or receiving outpatient treatment for a serious illness, speak with the social worker or navigator for assistance
 - If over the age of 60, contact the Department on Aging
- Contact the utility to work out a reasonable payment arrangement with the utility
- If the utility will not work out a reasonable plan, file a complaint with the Commission

The Critical Medical Needs Program (CMNP)

CMNP is a pilot program to expedite financial assistance to continue or restore utility services for medically vulnerable customers. The program is a voluntary partnership between BGE, OPC, DHS/OHEP, DHCD and the local Fuel Fund, and fast-tracks energy assistance/efficiency resources from agencies and non-profits. Medically vulnerability is established by a customer's ability to obtain a PSC Medical Certification Form.

The expedited program application assistance is provided by trained Navigators from hospital/community medical/community outreach staff who process applications for energy program resources in the setting where clients are already receiving medical attention or other services. The CMNP coordinates Navigator expedited application program assistance with expedited utility assistance to continue or restore services within a 24-48 hour period.

For information on CMNP, contact OPC at DLInfo_OPC@maryland.gov

Electric & Gas Utility Programs

BUDGET BILLING (EVEN MONTHLY PAYMENTS).

Utilities offer Budget Billing (an even monthly payment plan) for customers. This allows a customer to pay the same amount every month based on their expected annual usage. This amount may change periodically if you use more or less gas or electricity than expected. The program does not eliminate monthly charges on the bill, but it does even them out. The program is especially helpful if a customer wants to maintain a fairly fixed amount of expenses throughout the year.

BILL EXTENDER PLAN.

Utilities are required to adjust a customer's bill due date if they receive monthly income through Social Security or another government-sponsored assistance program. This can help avoid late payment fees, since a customer can pay the bill after receipt of their monthly income.

UTILITY SERVICE PROTECTION PROGRAM (USPP).

The USPP program is designed to protect households from utility service terminations during the winter. The program, established by the Public Service Commission (PSC), is available to MEAP recipients. USPP provides assistance, such as reconnection fee and security deposit waivers, to off-service customers. A customer must enroll in the company's Budget Billing program and apply the MEAP grant to the heating company bill.

PAYMENT ARRANGEMENTS WITH THE UTILITY.

A customer who is having difficulty paying their gas or electric bills should ask the utility about a payment plan to pay past-due bills over time. A deferred payment plan should take a customer's individual circumstances into account, including other available assistance, income, and the amount owed. If the utility will not work with the customer to establish reasonable payment arrangements, the customer should contact the Public Service Commission's Office of External Relations immediately to request help to mediate acceptable payment arrangement terms. This is the only way to stop service termination when there is a dispute.

DISPUTES WITH THE UTILITY.

A customer should contact the utility first to request information or resolve a dispute. If it is not resolved, a customer may file a complaint with the PSC.

Office of Home Energy Programs (OHEP) - Energy Assistance Programs

MARYLAND ENERGY ASSISTANCE PROGRAM (MEAP)

MEAP is an energy assistance program that helps low-income households with their heating bills, and at times, with their cooling bills. The program is available to households that meet the OHEP income requirements and heat with electricity, gas, oil, propane, wood, or other sources. Grant amounts vary depending on household size, household income, and heating source.

ELECTRIC UNIVERSAL SERVICE PROGRAM (EUSP)

EUSP is a program that helps low-income electricity customers pay their electricity bills. The program is available to households that meet the OHEP income requirements. The program includes Bill Payment Assistance and Arrearage assistance of up to \$2,000 once every seven years when applicable. **Customers must request screening for Arrearage assistance to receive any Arrearage benefit. EUSP Bill Payment Assistance requires customers to enroll in Budget Billing.** The annual EUSP Bill Payment is then applied through the electric company's Budget Billing program.

OHEP will maintain the existing waiver to the Arrearage Program requirement that allows any applicant who received \$300 or less within seven-years to apply for additional Arrearage funds.

OHEP provides an additional waiver for 'vulnerable households' who received \$800 or less within the past 7 years. Vulnerable households will be defined as having a member of the household who is over 65 years of age or under two years of age, and members who are medically fragile. The PSC medical certification form (found in this packet on page 28) can be used as proof of medical eligibility. Customers must request screening for Arrearage waiver assistance to receive any Arrearage waiver benefit, and should be certain to mention their vulnerable conditions to OHEP staff.

Important: The OHEP application is a Point in Time application. A customer must apply for all three grants (EUSP, MEAP, and Arrearage) at the same time. Customers may apply for Arrearage at a later date only if a change in income would result in a lower benefit level, there is a documented medical development, or there is presence of a vulnerable individual defined by the OHEP vulnerable population arrearage waiver. MEAP and EUSP are not available at a later date. If customers do not receive EUSP at the time of their original application, they will not be eligible to apply for Arrearage at a later date, as the prerequisite to Arrearage is that the customer receives EUSP.

GAS ARREARAGE RETIREMENT ASSISTANCE (GARA)

For FY 2019, OHEP will be offering GARA. GARA will operate similar to Electric Arrearage Retirement. GARA will provide up to \$2,000 once every 7 years, though certain waiver to this rule may apply. Customers must have a past due gas bill balance of at least \$300 to be considered for GARA.

DOCUMENTS NEEDED WHEN APPLYING FOR ASSISTANCE

One-Stop-Shop: There is only ONE application to apply for MEAP, EUSP, Utility Service Protection Plan (USPP), and DHCD's EmpOWER (LIEEP).

A customer should plan to bring (or mail) copies of the following documents when applying for grants or assistance:

1. **Picture Identification.** Driver's license, MD ID, employment ID, passport (current or expired), temporary resident card (I-688) or INS Green Card. Various other acceptable documents available by calling 1-800-332-6347.
2. **Proof of Residence.** Property tax bill (for homeowners); lease or rent book (for renters); or mail received at the subject address.
3. **Proof of Income.** Pay stubs (last four to seven weeks); unemployment insurance check stubs; benefit letter from TCA, SSI, SSDI, VA, Social Security; pension benefits; disability check; worker's compensation; or any other receipt of income.
4. **Social Security Cards** for all members of the household over age 2.
5. **Energy Usage.** Most recent utility bill, heating fuel bill, and/or turn-off notice.
6. **Landlord information.** Name, address and telephone number of landlord.

See page 6 for a list of local OHEP locations.

Department of Social Services (DSS)

Each local DSS agency has discretion to allocate the funds described below in different ways. If a customer is not currently receiving services through DSS (e.g. TCA, TEMHA), he or she can still contact the local DSS agency for possible assistance with housing and energy emergencies. Please note that all of these grants are highly discretionary and based on funding availability.

EMERGENCY ASSISTANCE TO FAMILIES WITH CHILDREN (EAFC)

EAFC is an emergency grant program that may be accessed once every 24 months when funds are available. The grant may be used for household emergencies, including utility bills. It is available to families with one or more children under the age of 21, who are related to (and reside with) the applicant. A person does not have to be receiving any state assistance to apply for an emergency grant. However, he or she must document individual circumstances.

FLEX FUNDS

Flex Funds may be available for households in order to maintain or reunify children with their families. These monies are available for a variety of needs, but the goods and services purchased must be related to the child's or family's needs. These funds may also be available for vulnerable adults in households without children depending on the situation and need.

WELFARE AVOIDANCE GRANT (WAG)

A WAG grant provides cash assistance to avoid the need for TCA and/or other benefits. Payment is made on behalf of a family with children for immediate and limited work-related needs. This is not an entitlement program. Funding is limited and can only be used for needs directly related to obtaining or maintaining employment such as vehicle repairs and job-related equipment. Persons who receive a WAG cannot receive TCA benefits for a specified time period.

"SPECIAL" OR "LOCAL" FUNDS

"Special" or "local" funds are charitable or local funds available for household emergencies. Local jurisdictions set eligibility criteria and grant amounts. Funds are intermittent and limited and allocated based upon a household's income and level of need.

Private Charities & Other Funds

FUEL FUNDS

Local Fuel Funds are charities that offer financial assistance to limited-income individuals with a utility bill crisis. This includes individuals that have had their service terminated or have received a turn-off notice. Generally, all Fuel Funds use the 200% of Poverty Income Guidelines (see pg. 7) for eligibility and require applicants to exhaust all other funding sources. Most, if not all, Fuel Funds partner with the local utility companies. The local Fuel Fund will determine the maximum dollar amount they can provide to each applicant.

Fuel Fund assistance is only available once in a 12-month period and applicants are highly encouraged to complete an energy conservation education course (WATT Watchers) through the Fuel Fund. Many local Fuel Funds require monies to be applied to the primary heating source of the applicant (gas, electric, oil, propane, kerosene, wood, etc.). Check with your local Fuel Fund for application and program rules.

HOUSING AND MORTGAGE ASSISTANCE

FORECLOSURE ASSISTANCE

If you are in need of help with paying your mortgage or you are facing a home foreclosure, be sure to first contact your lender and ask to speak with the loss mitigation or loan modification department. Try to work out a reasonable loan workout, repayment plan, loan modification or forbearance agreement. In many cases, it is best to get help from an experienced housing counselor who works with lenders and homeowners on a daily basis. There are many different types of foreclosure assistance programs, but their availability is dependent on many factors that include, but are not limited to: who your lender, investor or insurer is, your household income, credit rating, debts and expenses, and type of hardship.

<p>Mortgage counseling assistance www.makinghomeaffordable.gov 1-888-995-4673</p> <p>MDHOPE 1-877-462-7555 https://dhcd.maryland.gov/Residents/Pages/HOPE/MDHope.aspx</p> <p>To find a counseling agency near you visit www.hud.gov or https://dhcd.maryland.gov/Residents/Pages/HOPE/CounselorsList.aspx</p>	<p>Foreclosure Timeline and Mediation Process</p> <p>Step 1: Lender can mail a Notice of Intent to Foreclose (NOI) 45 days prior to filing action to foreclose. This notice is typically sent after 90 days of delinquency.</p> <p>Step 2: After 45 days from the date of the NOI, the lender can file an Order to Docket in Circuit Court.</p> <p><i>Maryland's new Foreclosure Mediation Law became effective July 1, 2010. The law requires mortgage lenders and servicers to be much more responsive to homeowners facing foreclosure. If the home facing foreclosure is a homeowner's principal residence, the homeowner will have the right to request mediation once the lender initiates foreclosure proceedings with the court system. At that time, the lender must send a "Request for Foreclosure Mediation" form. Homeowners will have 25 days to complete the form and file it with the circuit court. Homeowners must pay a non-refundable \$50 fee when they formally file this request for mediation.</i></p>

NEW FCC Rules, changed the program in important ways, including automatic eligibility criteria, the inclusion of broadband (fixed and mobile) and the eventual phase-out of assistance for voice-only services. Maryland law also changed the eligibility rules effective July 1, 2017.

Eligibility Criteria for new and recertified customers:

- Participants in such programs as: SNAP (Food Supplement Program), Medicaid, SSI, Federal Housing Assistance, Veterans Pension and Survivors Benefits Programs and certain Tribal Program participation.
- **Excluded programs include:** TDAP, LIHEAP, MEAP, EUSP, TANF, PAA, Section 8, and School Lunch participation.

Voice and Broadband Services: Lifeline customers will have the choice of applying their benefit to one of the following:

- Broadband only (fixed or mobile)

Things to Know About Lifeline Program

- All telephone customers pay for the Program through a Universal Service Fund (USF) charge on the bill.
- There is a flat discount rate of \$9.25 applied to voice, broadband OR bundled services.
- Service discounts can be applied to any voice service plan. However, **data and optional calling services are much more expensive than voice services, and Lifeline customers must pay for these services**, even if they get free or discounted “voice” minutes or service.
- Current Lifeline customers who switch providers to enroll in new broadband services, even bundled ones, will be considered “new” customers under the new eligibility rules.
- Only **one** Lifeline service is allowed per household. This means only one landline or wireless phone, or one broadband service, or one bundled voice and broadband service per household. A “**household**” is an economic unit of **all adult** individuals who contribute to and share income and expenses.
- A resident in a group home, nursing home, assisted living or similar facility can be certified as one household for purposes of Lifeline eligibility.
- There is an annual re-certification requirement for **all** Lifeline customers

Rental Allowance Program (RAP)

The Maryland Department of Housing and Community Development provides grants to local governments to provide flat rent subsidies to low-income families who either are homeless or have an emergency housing need. The RAP program provides a monthly rental allowance towards a person's rent for up to 12 months to help move families from homelessness, or temporary emergency housing, into more permanent housing and obtain self-sufficiency.

Tenant-Based Rental Assistance Program (TBRA)

This program is made available through HUD's HOME program but administered through participating jurisdictions. TBRA is a rental subsidy that can help individual households afford housing costs such as rent, utility costs, security deposits, and/or utility deposits. The rental assistance portion may not exceed two years but may have an option to renew. Each participating jurisdiction is given some flexibility on how they use the funds and typically those that receive assistance have been referred from other community organizations.

Housing Opportunities for Persons with AIDS (HOPWA)

This program, created by HUD, is used to address housing needs for low-income persons who are living with HIV/AIDS. Funds are distributed to states and cities by formula allocations and made available as part of the area's Consolidated Plan. Grantees partner with nonprofit organizations and housing agencies to provide housing and support to beneficiaries. HOPWA funds may be used for a wide range of housing, social services, program planning, and development costs. These include, but are not limited to, the acquisition, rehabilitation, or new construction of housing units; costs for facility operations; rental assistance; and short-term payments to prevent homelessness. HOPWA funds also may be used for health care and mental health services, chemical dependency treatment, nutritional services, case management, assistance with daily living, and other supportive services.

Low Intensity Support Services (LISS)

This program is designed to enable a family to provide for the needs of a child or an adult with developmental disabilities. The program provides funding of up to \$3,000 per person per year and covers services including, but not limited to, family counseling, personal care, day care, health services, specialized equipment, transportation, and housing adaptations.
